

Limestone Calcined Clay Cement (LC³) Stakeholders Meet Again

The 4th and 5th stakeholder meetings on LC³ were conducted in Mumbai and New Delhi on 2nd and 6th February 2018, respectively. Representatives from the Swiss Agency for Cooperation and Development, École Polytechnique Fédérale de Lausanne (EPFL), IIT Delhi, IIT Madras and Development Alternatives (DA) Group provided insights on their production of LC³. Dr. Soumen Maity, Assistant Vice President, and Vaibhav Rathi, Manager, DA Group, shared the progress of LC³ project over the past three years – in terms of the extensive research, laboratory trials and first industrial productions. The meeting also witnessed the launch of LC³ Technology Resource Centre (TRC) in India. TRC has been initiated to provide state-of-the-art knowledge on LC³ and related products. It provides consultancy services for establishing the feasibility of LC³ in cement production, and testing facilities for the use of LC³ in concrete and concrete applications.
