

DA at Climate Jamboree

Dr Ashok Khosla (Chairman, Development Alternatives), was invited at Climate Jamboree, on 2nd November, 2018 at Thyagraj Stadium, New Delhi. A TERI School of Advanced Studies' initiative, Climate Jamboree is a movement that aims to engage and empower youth from India and across the world to build a sustainable future. It comprised of a series of lead up events to initiate an engagement process for youth from different disciplines and different walks of life with sustainability thinking. Dr Ashok Khosla shared his views on the role of youth in bringing change for a sustainable future. Outlining the complexities of sustainability issues in the Indian context, Dr Khosla spoke about the need for political, economic and environmental dimensions to undergrid development policies.
