Partners, Stakeholders and Users

The philosophy and strategic thrust of the DA Group differentiates between the primary clients and intermediary partners. The Group believes in fostering a meaningful engagement with the communities through an inclusive and participatory approach. The communities are given prime importance and are treated as Primary Partners.

The Primary Clients (typically voiceless) include:

- Poor and marginalised (rural and urban) (Direct – women and youth; indirect – children)
- Micro, Small and Medium Entrepreneurs/Enterprises
- Nature

For nearly 30 years, the organisation has been involved with a wide range of intermediary partners to multiply the work further and implement the programme/projects at scale, stakeholder consultations and participation to undertake collaborative research and policy influence.

Government Agencies

- Central Ministries of the Government of India - Rural Development, Science and Technology, Environment and Forests, New and Renewable Energy, Planning Commission, etc. and specialised agencies like Indian Council of Social Science Research (ICSSR), National Council of Applied Economic Research (NCAER) and Numerous State Governments
- State Governments of Madhya Pradesh, Bihar, Delhi, Himachal Pradesh etc
- Selected Panchayati Raj Institutions (PRIs – grassroots governments) and Municipalities

Financial Institutions/Social Investors

- National Bank for Agriculture and Rural Development (NABARD)

Corporations, Foundations, Non-Resident Indians
